High-level of productivity resulting in 20–50% faster delivery than the market.

Very attractive pricing resulting in up to 50% lower cost of delivery than others

Past Performance

August 2020 – present

Digital e-wallet banking platform - for Rego Payments Architectures Inc. (at \$1M budget/year). Adanto delivered a Mazoola banking and credit card solution that caters to parents who wanted to provide a safe way for their children to shop safely online.

Mazoola is the only secure GDPR kids and COPPA-compliant digital wallet banking solution in existence. It provides virtual banking services for consumers: spending, savings, e-commerce, stock investing and cash transfers. It was awarded a winner for its outstanding kid-proof usability, features & bullet-proof security.

The tech stack: SaaS App development in Azure Services, with C#/ .NET back-end and Reactive Native & Android front end, Node.JS for Web, CI/CD in Azure pipelines, API-integrated 30+ different apps: payment processors, banking, credit card managers plus various stock investment, and e-commerce tools.

January 2023 – present

SaaS-based custom CRM solution for medium size sales force - for MyUtilities.com and C1Insurance Group (at \$550K budget/year). Adanto delivered Cloud & Web-based CRM system managing the utility services sales workflow to new residents in Texas. The AWS-based cloud platform integrated many services like SSO, email, Ring Central calling, text messaging, and data with utilities in Texas.
